

Amnon Nissan

Computers 2k7 Host
Sundays, 8am-10am
WRBZ – AM 850

- w Born in Jerusalem, Israel in 1948, Amnon Nissan is what some may refer to as a “computer geek.”
- w Aside from hosting Computers 2k7 each Sunday on WRBZ, Amnon runs Deltaforce Technologies, a computer consulting and ISP company.
- w Amnon came to 850 in 1992 and offered his time and talents to hosting a computer show. 15 years later, Amnon still holds the distinction as the only local computer show in the Triangle.
- w In his spare time, Amnon enjoys collecting, restoring, showing and parading military vehicles and equipment. It may seem like a strange hobby until you consider his past education at the IDF Military Academy.
- w This military man is as much of a sports fan as the next. And a classic moment won his heart, as Amnon lists his favorite moment in sports history as the NC State/Jim Valvano Championship win.
